Who Furnished the
Gun Is Always
\$64 Question

Korean dispatches report that the mountain of automatic weapons captured in the UN victory shows that the North Korean army had greater fire power than any army which fought in World War II.

That is, little Korea (North) was better outfitted than such redoubtless countries as Germany, the United States, France and Great Britain.

These weapons came from Russia. We know that now, because we've got the weapons and have examined them.

In the criminal code the man who furnishes the gun for a specific errand is held equally guilty with the man who actually fires it. And in this instance — where a big nation gave the gun to a little nation to do the former's dirty work — the guilt is much greater.

Russia was our ally in World War II. She cultivated important people here in America, got her agents close to high places — but the moment her own national peril was relieved by the fall of Germany she immediately engaged in treachery.

Russian guns and tanks killed or wounded thousands of American boys in Korea in an unparalleled example of "undeclared war" between two major powers.

When the rules of warfare can be so perverted how is it possible to ask Americans to listen to mere words when the Russians speak them? It is an experience calculated to unite the whole world against the perfidious men from Moscow — and indeed the whole world is so united today.

Soviet Plan for 'Peace' Is Outdated

Lake Success, Oct. 12 — (P)— Britain gives the West's answer to the latest Soviet peace plan in the United Nations today.

Minister of State Kenneth D. Younger is expected to tell the 60-nation political committee that Soviet Foreign Minister Andrei Y. Vishinsky's plan for consultations among the Big Five and security council creation of an international army is outdated.

The West's position, as outlined by an American spokesman yesterday and concurred in by Britain, is that the proposals, while admirable in themselves, are not new — they were contained in the United Nations charter signed at San Francisco five years ago and only Soviet obstruction has prevented them from being put into operation before this.

They pointed out that consultations have been continuous since then in U. N. forums and plans for the international army under security council control were scuttled by the Russians in 1947.

Therefore, delegation sources said, those two Soviet proposals alone will not ease current international tension unless they are accompanied by concrete Russian actions for peace. They would need more specific evidence that Russia now means what it says, before abandoning their own far-reaching proposals.

The West will consequently, continue to push a seven-power resolution to give the veto-free general assembly military power to repeal aggression whenever the security council is paralyzed by a Russian veto.

These sources said, however, that the U. S. and Britain had no objection to incorporating a section in that resolution along the lines of the Russian proposals. They emphasized, however, that this would not be allowed to interfere with the primary aim of giving the U. N. power to deal with aggression even when Russia appealed such actions.

Russia is expected to reject this solution and to insist that its resolutions be considered separately as counter proposals to the American plan.

Cotton Picking Contest Underway at Blytheville

Blytheville, Oct. 12 — (P)— Preliminaries of the eleventh annual national cotton contest get underway here today.

The two-hour contest itself will be held tomorrow.

But the festivities were to start this afternoon with a parade, including some 13 bands from Arkansas, Tennessee and Missouri.

Besides the parade other events scheduled before and after the actual contest include street dances, a marksmanship exhibition, carnival parties, a style show and the cotton ball tomboy night.

Several cotton workers hope to share in the \$2500 money offered in the cotton picking. These include Eddie Anderson of Georgia, Mo., who won the second of his two titles last year.

A total of \$2,000 radio minutes up rate about 24,000 stations in the country.

Production and Profits Record for Industries

By SAM DAWSON
New York, Oct. 12 — (P)— Record peacetime industrial production and record all-time corporate profits are reported today as the nation starts its program of re-armament.

Also in the Columbus day news packet are government reports that:

1. Net working capital of corporations had reached an all-time high of \$73.8 billion at the time the Reds marched on Korea.

2. The buying wave the Red drive set off in the United States caused inventories to rise \$1.2 billion during August to a total of \$55.5 billion.

3. Retail food prices rose 1.4 percent in the last two weeks of September to stand 2.7 percent above the price level when the Korean fighting began. But some grocers report that by mid-October the trend of retail food prices showed signs of turning around and easing seasonally.

Private industry adds today to these government reports to show how America's industrial might is growing as it starts to build up its military might.

The American Iron and Steel institute reports that output of raw steel in the first nine months of this year totalled a record 71,668,350 tons. This was 6 1/2 million tons more than was produced during that period last year, and almost 4 1/4 million tons above the previous nine-month record in wartime 1944.

The steel industry has announced a big expansion program. At the start of this year it had a capacity of about 100 million tons a year. By the end of 1952 it expects to have a capacity of nearly 110 million tons.

To keep its furnaces going at that pace it will need even more iron, coal, fuel oil, natural gas, scrap steel, and manganese than the record amounts it is consuming now.

An upswing in steel price is gaining momentum. Several companies have increased prices on some steel products. Today Jones and Laughlin raised the price of cold finished carbon bars \$1 a ton.

The estimate on corporate profits comes from the president's council of economic advisers.

Third quarter earnings, the council believes, will be at an annual rate of \$40 billions before taxes, compared with \$35.3 billion this time last year.

But taxes have gone up since then. Corporate earnings after taxes will be whittled back to an annual rate of \$23.2 billion, the council says, compared with \$17.3 billion annual rate in the third quarter of 1949.

Industrial production is estimated by the council at the highest point since June, 1945.

It is against this record production background that the government will start issuing its defense priorities, allocations, inventory controls, and credit curbs.

Final Rite for Mrs. Murry Here Friday

Mrs. Bertie Sparks Murry, aged 77, died last night at Ashdown. She formerly lived in Hope.

She is survived by two daughters, Mrs. Clyde Sutton of Ashdown, Mrs. L. W. House of Ft. Smith, two sons, John Stanley Sparks of Sheridan, Arthur Sparks of Greenville, Texas; three sisters, Mrs. A. J. House of Port Arthur, Texas; Mrs. G. O. Johnson and Mrs. J. A. Crum of Reading, Ohio.

Funeral services will be held at Herman-Coruch Chapel at 4 p.m. Friday. Interment will be in Rose Hill cemetery.

Active pallbearers: Fred Petre, Orville Ogleby, Tommie Lee Brent, Will Beard and Giles Hall.

Puerto Rican 65th Enters Korea War

Tokyo, Oct. 12 — (P)— General MacArthur's headquarters announced today the Puerto Rican 65th Infantry Regiment is on duty in Korea.

The General headquarters announcement didn't give the strength of the unit nor say whether it was in action.

Puerto Rico is a territorial possession of the United States in the Caribbean.

History of the unit dates back to the time of President McKinley. Authority for the first body of native troops of Puerto Rico was contained in legislation enacted in 1949.

In World War II the regiment was stationed in the Panama Canal Zone and later went to Africa and Europe.

CONFESSES AMBUSH MURDER — Gerald Killinger, 17, left, has confessed the ambush murder of Harold Mast, 23, Medina, Ohio, farmer. Killinger said he fired shotgun blast at Mast as he walked from his car to rear of his home on October 5. He told authorities he fired shot to give his friend Max Amerman, 27, right, a "clear field" with Mast's wife, Hande, 24, a Norwegian war bride. Both men are being held in a Cleveland, Ohio, jail. (NEA Telephoto)

Railroads Claim Union Wage Demands Would Force Big Hike in Fare, Freight Rates

Stalin Wishes Red Koreans Success

Moscow, Oct. 12 — (P)— Premier Joseph Stalin has wished the North Koreans success in their struggle for "the creation of a unified, independent, democratic Korea."

The text of the telegram was featured on Moscow front pages beneath large headlines this morning after it was previously broadcast by the Moscow radio.

The message was Stalin's reply in an exchange of greetings between the Soviet and North Korean governments on the second anniversary of establishment of diplomatic relations between them.

North Korean Premier Kim Il Sung wired the Russian leader expressing his country's "warmest gratitude" for the "friendly support given by the Soviet Union to our people in their struggle for the independence of our country."

Generalissimo Stalin replied: "I wish your people, who are heroically defending the independence of their country, a successful completion of their struggle for the creation of a united, independent, Democratic Korea."

The firemen and engineers also have pending a request for 48 hours pay for 40 hours work for 35,000 members in yard service, a demand which the carriers think would add \$23,000,000 to their rate.

(3) The Brotherhood of Locomotive Engineers, headed by J. P. Shields, wants a flat 20 per cent wage increase for all of its 89,000 members, with work guarantees for those in the yards as well as on the rolling trains. The carriers say that would cost about \$22,000,000 a year.

(4) The Brotherhood of Railroad Trainmen and the Order of Railway Conductors together are asking the same 40-cent-a-hour pay as the Railroad Union. Their six-month-long fight over that demand led President Truman to issue the railroads last Aug. 27 to head off a nationwide strike by the 300,000 members of those two unions. The dispute still is unsettled.

Rail Unions Ask 25-Cent Wage Hike

Washington, Oct. 11—(AP)—Heads of 15 railroad unions with a million members decided today to ask for a 25-cents-an-hour wage increase.

The unions concerned are made up of non-operating workers, that is, men and employees not directly connected with actually operating trains.

An announcement of the wage decision was made by George E. Leighty, president of the Order of Telegraphers and chairmen of a joint committee of the railroads.

Leighty said notices would be served upon the nation's major railroads on Oct. 25 asking for immediate negotiation. He estimated that demand would cost the railroads \$60,000,000 a year.

The average worker in the 15 unions now receive \$60 a week. The 25 cents would allow him a \$15 weekly wage boost.

The unions include the shopmen, telegraphers, clerks, signmen, water service and dining car employees.

These workers, Leighty said, were asking for 25 cents an hour because they figured they were "far behind the parade" in other industries. Their last wage increase came in October 1948, when they received a seven-cents-an-hour wage boost. Linked with that increase, however, was the concession to place the non-operating employees on a 40 hour work week Sept. 1, 1949 without loss in pay. In figuring the 48 hours pay for 40 hours of work, the seven cent boost was excluded.

Commissioners Ask Levee Job on St. Francis

Memphis, Oct. 11—(AP)—The St. Francis Ark. levee district wants the Mississippi River commission to enlarge several miles of main line levee in Arkansas below Memphis.

The levee commissioners presented their requests here yesterday at the commission's annual low-water hearing. Details were released by W. G. Huxtable, chief engineer of the district.

The commission was asked to improve four miles of sub-standard levee near Happy, Ark., and to strengthen about three miles near Island No. 50 below the Memphis harbor project.

Huxtable also revealed that first priority for the multi-million-dollar St. Francis river basin improvement project will go to the section between Madison and Marianna. He said the St. Francis levee board will meet Oct. 19th to plan the project.

Teacher Blamed for Campus Fire

Ann Arbor, Mich., Oct. 11—(AP)—A Latin teacher at the University of Michigan confessed today, police said, that he set the fire that destroyed historic Haven Hall on the university campus June 6.

He was identified as Robert H. H. Stacy, 30, of Gowanda, N. Y., a teaching fellow who was an honor student in his undergraduate days at Michigan.

Detective Jack Woolley, of the state police fire marshal's office, said Stacy admitted setting the fire that destroyed the university landmark. No motive could be given by police.

Prosecutor Douglas K. Reading obtained a warrant charging Stacy with arson.

State and city police picked up Stacy last night for questioning in connection with a \$200,000 fire at Montgomery Ward warehouse here Monday night.

He was taken later to East Lansing for a lie detector test, police said, and after all night questioning, admitted setting fire to a pile of maps on the second floor of Haven Hall the night it burned to a shell. Damage to the campus landmark was estimated at \$600,000.

Haven Hall housed the history departments and the university's lawns of government library. A new building to replace it has been approved by the state.

Detective Woolley gave no motive for Stacy, questioned and released Stacy's alleged arson. He said shortly after the Haven Hall fire, he had been examined by Dr. O. R. Yoder, superintendent of psychiatric State Hospital and one of the state's leading psychiatrists.

Yoder declined to say what evidence police had used to link Stacy with the fire other than that they acted on a "tip." Stacy was one of the spectators at the Montgomery Ward fire, according to Ann Arbor Police Chief Caspar Finkenauer.

Finkenauer said Stacy denied setting the Montgomery Ward fire and, so far there is no proved connection between the two.

Stacy came to the university as a student in September, 1939, but left later that year to serve in the army. He was in service for three years, two of them overseas, before he was honorably discharged in 1942 as a master sergeant.

He returned immediately to the university, where he was an honor student for four years of undergraduate work. He received his bachelor of arts degree in 1947 and his master's in the following year. He was a teaching fellow in English language and literature and later in Latin while working on his doctor's degree.

Republicans Hold Lead in Alaska

Juneau, Alaska, Oct. 12—(AP)—The land of the midnight sun today holds the answer to whether a Republican tide in Tuesday's general election will wash the Democrats out of control of the Alaska legislature.

The Republicans led for six out of eight senate seats in the four territorial districts as early returns came in today and for 12 of the 20 seats in the house of representatives.

Slow communications and difficulty in tabulating the lengthy ballot delayed final counts but the preliminary returns indicated a definite trend toward the G. O. P. Four of the house seats in the second division are from the Arctic region and the isolated West coast, from which no returns have been received.

The Democrats clung to their almost traditional control of the seat held by the territorial delegate to the U. S. congress. Incumbent E. L. Bartlett piled up a better than 2 to 1 margin over his Republican opponent, Almer Peterson of Anchorage.

The Alaskan election was closely watched by both parties as a possible indicator of political trends in the United States. The Democrats have claimed Alaska for that role in view of the similarity between the territory's voting in 1946 and 1948 and those results in the states.

Hadacol Helps Arkansas' Oldest Timber Estimator

He Suffered Deficiencies of Vitamins B-1, B-2, Niacin and Iron

B. J. Chandler, 518 Lacer Blvd., in Hot Springs National Park, Ark., will be 83 years old in October and is believed to be the oldest timber estimator in Arkansas. He feels better now than he has in a long time since HADACOL has helped him relieve deficiencies of Vitamins B-1, B-2, Niacin, and Iron.

Here is Mr. Chandler's statement: "I suffered with aches and pains in the shoulders, hips and knees. It was almost impossible to sleep and I had lost my appetite. HADACOL has done me more good than anything else. I have taken about 35 bottles of HADACOL. The pains have been greatly reduced."

Why HADACOL Gives Such Fine Results

HADACOL does not just bring symptomatic relief — HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disorders and a general run-down weakened condition due to such deficiencies in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B-1, B-2, Iron and Niacin but also helpful amounts of important Calcium and Phosphorus — elements so vital to help maintain good health and physical fitness.

Why These Vitamins and Minerals Come in Liquid Form

There's a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are easily and quickly absorbed into the blood stream this way — ready to go right to work. A big improvement is often noticed within a few days.

Don't Be A Doubting Thomas'

After reading Mr. Chandler's wonderful experience with HADACOL — how can you doubt that this great new nutritional formula will help you if your system lacks Vitamins B-1, B-2, Iron, and Niacin?

What HADACOL did for Mr. Chandler, it can do for you if you're suffering annoying aches and pains and a general run-down weakened condition due to such deficiencies.

So what are you waiting for? Don't you see that HADACOL is the kind of product you should start taking immediately?

Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin of red blood cells when Iron is needed to cleanse through your body, carrying these great health-building elements to every body organ — to every part of the body. No wonder HADACOL helps you feel wonderful!

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around — a burden to yourself and your family — when relief may be as close at hand as your nearest drugstore if you select HADACOL. B-1, B-2, Niacin and Iron. This great HADACOL is inexpensive, too — costs only a small amount a day. Trial size, only \$1.25. Large family or Hospital size, \$3.50.

Parsons-Klug
Wedding
New York

Miss Gloria Evelyn Klug, daughter of Mr. Henry L. Klug, of Linden Street, Bellmore, Long Island, N. Y., and the late Mr. Klug, was married Sunday, September 17, to George Embry Parsons, son of Mr. and Mrs. John Parsons of Blevins.

The ceremony took place at the Baltimore Methodist church at 5 o'clock in the evening with the Rev. Donald Mark Rubyon, minister, officiating.

The bride, given in marriage by her brother, Henry Klug, Jr., wore a wedding gown of white net over satin. Her veil of illusion was fastened to a cap of the net and she carried a bouquet of white bride's roses.

Miss June Evans, of Roosevelt, was maid of honor, and Milton King of Belmore, another brother of the bride, was best man. Ushears were Lloyd King, brother of the bride, and Richard Gomes of Lauritson.

Immediately after the ceremony a reception was held at the Grove, North Bellmore. After a trip to Arkansas, the couple will make their home in Baldwin.

The bride is a graduate of Bellmore High school, and the bridegroom was graduated from Blevins High school and served three years in the Army Air Force, with 22 months in Guam.

Mr. and Mrs. Montgomery are stationed at White Sands, N. M. Mrs. Montgomery will make her home in Amarillo where she is employed by the Producers Grain corporation.

The John Can chapter of the Daughters of the American Revolution met in the private dining room of the Barlow hotel Wednesday, October 11, with Mrs. Paul Elipsach, Mrs. J. J. Battle, and Mrs. Catherine Hockard as hostesses.

This date was also the 60th anniversary of the founding of the national organization. The roundtable was beautifully decorated with a large flat garden basket filled with dahlias and chrysanthemums of autumn color.

After the opening ritual, and the singing of the national anthem, Mrs. Wilbur Jones, regent, conducted the business session. Reports were given by the committee chairmen who also discussed plans for the coming year. The yearbook chairman, Mrs. Flinter Ward, distributed the yearbooks, whose theme for the year is "Our Heritage and Our Responsibility."

Hostesses for the November meeting will be Mrs. O. A. Graves and Mrs. R. M. Bryant.

Emily Hobbs
Guest Speaker
at FHA Meeting

The first meeting of the Future Homemakers of America was held Tuesday, October 10, in the home economics cottage at Hope High school.

The meeting was called to order by Helen Power, president for the coming year, who greeted the many new members present. Anita Copeland, secretary, read the minutes of the last meeting and called the roll.

The following additional officers were re-elected by secret ballot:

THE WONDER DOG**Just Wanted to Do Something Bad Says Shooting Youth**

Sault Ste. Marie, Mich., Oct. 12—(AP)—"I just wanted to do something bad."

That, police said, was the only explanation 18-year-old Donal Cole could give for shooting and wounding two girls in a woodland ambush.

The Soo High school junior admitted the shootings following his capture by state police in the north woods yesterday. State troopers said the sheriff's deputies had been hunting him since Saturday when he fled the scene of the shootings.

The bride, given in marriage by her brother, Henry Klug, Jr., wore a wedding gown of white net over satin. Her veil of illusion was fastened to a cap of the net and she carried a bouquet of white bride's roses.

Miss June Evans, of Roosevelt, was maid of honor, and Milton King of Belmore, another brother of the bride, was best man. Ushears were Lloyd King, brother of the bride, and Richard Gomes of Lauritson.

Immediately after the ceremony a reception was held at the Grove, North Bellmore. After a trip to Arkansas, the couple will make their home in Baldwin.

The bride is a graduate of Bellmore High school, and the bridegroom was graduated from Blevins High school and served three years in the Army Air Force, with 22 months in Guam.

Mr. and Mrs. Montgomery are stationed at White Sands, N. M. Mrs. Montgomery will make her home in Amarillo where she is employed by the Producers Grain corporation.

The John Can chapter of the Daughters of the American Revolution met in the private dining room of the Barlow hotel Wednesday, October 11, with Mrs. Paul Elipsach, Mrs. J. J. Battle, and Mrs. Catherine Hockard as hostesses.

This date was also the 60th anniversary of the founding of the national organization. The roundtable was beautifully decorated with a large flat garden basket filled with dahlias and chrysanthemums of autumn color.

After the opening ritual, and the singing of the national anthem, Mrs. Wilbur Jones, regent, conducted the business session. Reports were given by the committee chairmen who also discussed plans for the coming year.

The yearbook chairman, Mrs. Flinter Ward, distributed the yearbooks, whose theme for the year is "Our Heritage and Our Responsibility."

Hostesses for the November meeting will be Mrs. O. A. Graves and Mrs. R. M. Bryant.

67 to Get Top Priority on Highway Plan

Little Rock, Oct. 12—(AP)—A total of \$34,284,130 has been spent on highway construction in Arkansas during the past 16 months.

This was announced today by Governor McMath as he ordered the Arkansas Highway commission to begin mapping plans for the state's road construction in the next two years.

McMath, who reported on accomplishments of his road building program, said the money was spent on 1,542 miles of new highway. This includes 429.88 miles of primary roads, 1,012.62 miles of secondary roads.

The figures do not include money spent on maintenance, shoulder repair or bridge repairs.

"All in all," McMath said, "the state has received a bargain in its road building program."

He said actual cost of highway construction was about 10 per cent below engineer estimates. But he added that inflation probably will increase future highway construction costs.

He gave this breakdown on highway construction by districts:

District 1—primary roads, 98.6 miles, secondary roads 58 miles.

District 2—primary 52.4; secondary 128.2.

District 3—primary 22.2; secondary 111.2.

District 4—primary 20.6; secondary 64.7.

District 5—primary 66.2; secondary 112.2.

District 6—primary 57; secondary 68.

District 7—primary 46.2; secondary 63.9.

District 8—primary 6.1; secondary 174.7.

District 9—primary 5.7; secondary 153.4.

District 10—primary 59.5; secondary 77.5.

Governor McMath said the highway commission had been instructed to base its road building program for the next two years on rebuilding the main primary roads.

He said that most of the effort will be concentrated on highway 67 from Little Rock to Texarkana, highway 70 from Memphis to Little Rock and highway 67 from Little Rock north to the Missouri border.

Those roads, McMath said, were built 29 years ago and are now worn out. He said that in event of an all out war Arkansas' primary road network would be vital to national defense and thus must be put in tip top shape.

He said the Memphis to Texarkana road "is one of the heaviest traveled in the United States." He said a traffic count has shown that 10,000 vehicles pass a given point on that route in a 24-hour period.

Office Clerk (nervously): Please, sir. I think you're wanted on the phone."

Employer: "You think! Don't you know?"

Office Clerk: "Well, sir, the voice at the other end said, 'Hello, is that you, you old idiot?'"

Columbus Did Not Discover a New World

Baltimore, Oct. 12—(AP)—It was not to a new world that Christopher Columbus sailed the ocean blue in 1492, a Johns Hopkins university geographer believes.

A well-beaten track between Asia and the Americas probably existed two or three thousand years before Columbus made his epic first voyage. Professor George F. Carter writes in the current issue of the "Southwestern Journal of Anthropology."

Americans pay tribute today to Columbus as America's discoverer.

Dr. Carter suggests the Asiatic peoples made contact with the western hemisphere sometime before 1,000 B. C.—perhaps as early as 2,000 B. C.

His theory is based on the fact that plants such as the sweet potato, cotton, Mexican poppy and certain weeds existed in America and Asia and some Pacific Islands long before "any written record of man's having traveled between the two points."

Plants can't originate twice,

the geographer holds.

"The answer to this puzzle," Professor Carter concludes, "is that man did make such unrecorded ocean voyages—probably in elaborate, giant canoes."

"At about the time of Christ, the inhabitants of the old and new worlds were in frequent contact and were exchanging information freely."

France Plans Huge Defense Program

Washington, Oct. 12—(AP)—France proposes to double its defense spending next year, provided it gets approximately \$750,000,000 in outside aid.

French Defense Minister Jules Moch is reported ready to explain this new program to Secretary of Defense Marshall at a meeting today at the Pentagon.

Reliable officials said plans for boosting France's defense budget were presented to the state and defense departments just prior to Moch's arrival in this country yesterday.

The French proposal, they said, contemplates increasing defense expenditures from around \$1,200,000,000 this year to around \$2,450,000,000 during 1951.

Moch is seeking quick American approval of the plan during a round of conferences with top American defense leaders so his government can present the expanded military budget to the French parliament shortly after it convenes next Tuesday.

France's ability to bear this big defense burden appears to hinge on whether the United States is ready to extend immediate large scale financial help from the \$225,000,000 foreign arms aid fund appropriated by congress.

Informal officials who cannot be named told a reporter the French plan calls for assistance not only from the United States but from Britain, Belgium, Italy, and other North Atlantic treaty allies.

More than \$500,000,000 of French defense funds, it was reported, would be allocated to French troops now battling advancing Communist forces in Indochina.

French Finance Minister Maurice Petsche is due to arrive in New York by ship today to join Moch in his round of financial talks with American officials.

State and defense experts are reported carefully studying the data presented by Moch's aides in an effort to give the French an indication of how much assistance the United States can provide.

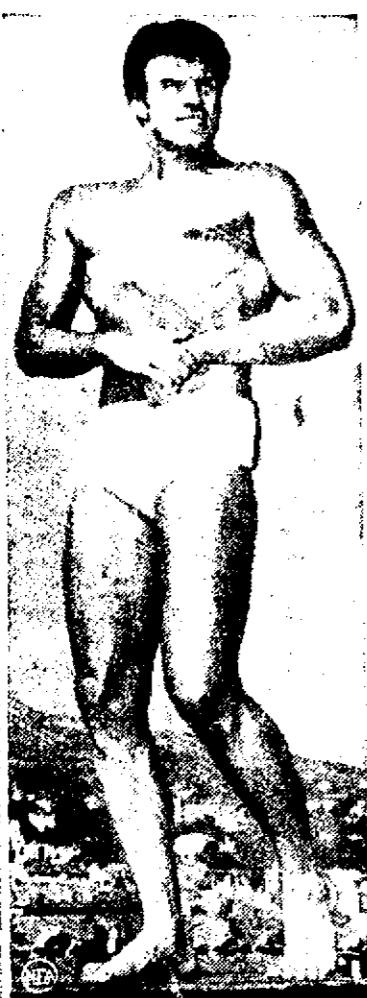

Riding While Drunk Is Strange Charge

Newark, N. J., Oct. 12—(AP)—They didn't charge Harold B. Wilder with drunk driving or with speeding. Instead they revived the ancient charge of being drunk while on horseback.

Police said the 47-year-old junk dealer outdistanced a squad car for five blocks after unsaddling his white steed from his wagon. Today's hearing will mark the first time the old statute has been applied within present city hall memory.

The ribbon-tailed bird of paradise has a tail three times as long as its body.

The standard of literacy in Ceylon is probably the highest in Asia after Japan.

Many Wonder About Meet of Top Leaders

By ED CREAMER
(For James Marlow)

Washington, Oct. 12—(AP)—What will they say to each other? How will they hit it off?

One man is a livestock dealer's son—a brisk, hail-fellow-well-met, with a ready handshake and a quick, hearty laugh. He is President of the United States.

The other man? A general's son—lean, handsome, dramatic, with a reputation for steely-eyed aloofness. He is the five-star general who commands the United Nations forces in Korea.

They will meet for the first time this weekend—Harry Truman, 66, and Douglas MacArthur, 70. The friends and detractors of each would give a lot to be present at the Pacific island meeting. Two men more widely different in personality can hardly be imagined.

MacArthur is a living legend—a larger-than-life-size figure, born to command; a cartoonist's delight, with his outthrust chin, his sunglasses, his corncock pipe; a supremely self-confident man with a flair for the full-blown, picturesque phrase.

"I shall return," vowed MacArthur after Corregidor. And he did.

Harry Truman—and this is one of his assets—looks like the man next door. He is a dirt farmer who drifted into politics, a plain-spoken plain citizen who had vast power and responsibility thrust upon him. Self-confidence came late to President Truman. But he's had it in abundance since election day, 1948.

It may seem strange that the head of a state has never met one of the country's outstanding generals. But history nudged these two men in different directions from the first.

MacArthur, born on an Arkansas military base, was an athletic youth destined for West Point. Harry Truman was a studious Missouri boy who took piano lessons instead of playing baseball. Bad eyesight barred him from sports. It also caused West Point to turn him down.

In World War One, MacArthur was a dashing young colonel. "The D'Artagnan of the A. E. F." they called him—after the flamboyant hero of Dumas' "The Three Musketeers." He threw aside his helmet when he went into battle. He won 12 decorations and a speedy promotion to brigadier-general.

It is doubtful if he ever heard of an obscure, bespectacled artillery captain named Harry Truman.

MacArthur went onward and upward between the wars. By 1930, he was chief of staff. Harry Truman, by that time, had gone broke in the men's wear business and was in Missouri politics. He reached the U. S. senate in 1934 and squeaked through to reelection six years later.

Then—Pearl Harbor. Douglas MacArthur became a world figure overnight—the master strategist, the author of flaming communiques, the symbol of American determination to hurl back the Japanese aggressors.

Harry Truman? He won attention as a watchdog over war production. Somewhat reluctantly, he ran for vice-president on the Franklin D. Roosevelt fourth term ticket. The ticket won. And history, a few months later, installed the man from Missouri as Douglas MacArthur's commander-in-chief.

He's a different man today—President in his own right, unbending as steel on occasion, accustomed to make decisions that could alter the face of the world.

The man he meets this weekend is the virtual ruler of the defeated Japanese empire, and stands on the threshold of a great new military triumph.

How will they get along? What will they say to each other?

McMath to Propose New Taxes

Little Rock, Oct. 12—(AP)—Governor McMath will recommend new taxes to aid in financing construction of new state hospital units to replace present overcrowded and fire-hazardous old buildings.

He said yesterday he would ask the 1951 legislature to impose new levies for a \$6,000,000 new plant, plans for which already have been made.

One item to be asked will be an increase in state cigarette taxes—which the 1949 legislature reduced two cents a package on McMath's recommendation.

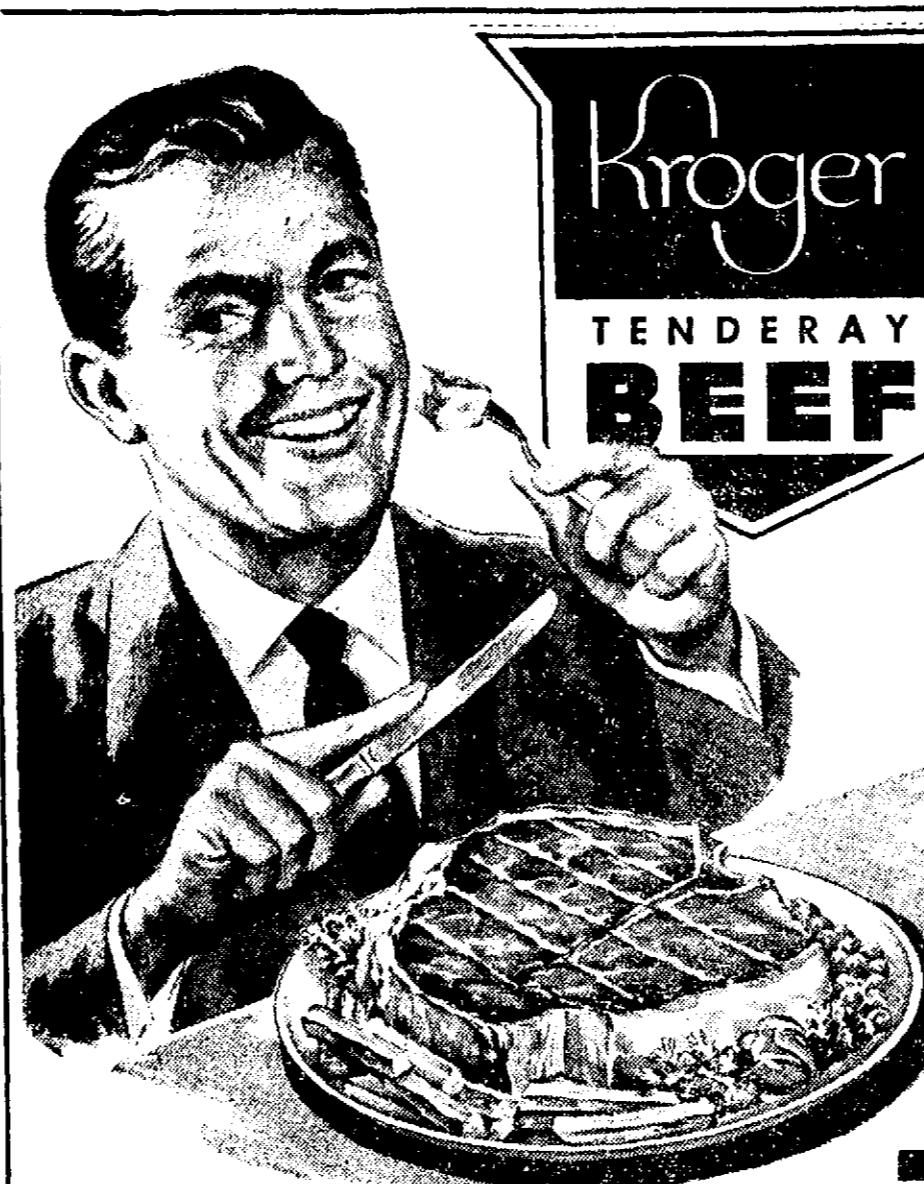

The governor didn't say how much increase he would ask, but did say that a one cent a pack boost would add about \$1,000,000 annually in revenue.

McMath didn't disclose what other new taxes he might recommend.

One building at the hospital plant was condemned by Little Rock Fire Chief Gamm Nalley Tuesday. McMath yesterday ordered that admission of alien persons to suffering from mental disorders be halted.

State authorities and others have another hospital worry—a sizable reduction in the federal aid allotment for hospital and health center construction for the fiscal year ending next June 30. Arkansas' portion was cut from \$2,776,600 to \$1,677,932.

It was part of a cut in overall congressional appropriations authorized by congress and carried out by the budget bureau.

XXXIV

GIL SUMMERFIELD, in blue sports shirt and linen slacks, was stretched in a low garden chair. He realized, vaguely, that the warm, winelike air was putting him to sleep. It had already produced a marked soporific effect upon his Irish setter. The dog was beautifully relaxed, his hunched sides heaving. Gil stretched, and his pipe fell from his teeth. He let it lie on the grass. His eyes closed.

All at once the setter stirred. Gil opened one eye, started, then passed a hand over the eye. It had been a nice fragmentary dream. But, of course, only a dream. There wasn't a girl, in a blue traveling suit and a little blue hat, standing there against the opposite wall of his garden. Because, in Bermuda, girls didn't wear blue traveling suits.

And then came the voice, low and a little vibrant.

"I don't know," said the voice, "whether I ought to cross this garden on my feet or my knees."

Gil Summerfield bounced up then. The setter, disturbed, bounded likewise, "Ede," cried Gil Summerfield, and almost fell out of his chair. Ede came toward him with firm footsteps.

"Do you think your dog would mind very much, Gil?" she said, a queer sidelong look in her green eyes, "if I apologized in front of him?"

Mr. Summerfield regained a measure of his aplomb. He got to his feet. But he still stared at her. "Ede," he said unbelievingly, "This—is wonderful. Where in Heaven's name did you drop from?"

"From an airplane. I . . . oh, Gil, I had to come."

• • •

GIL was completely recovered by now. He said slowly: "Then

sider any document I'd had drawn up a phony."

"How could I? It's dated and notarized and good notaries don't fake dates, do they?"

"No, they don't. But after you told me what you thought of me that day, the whole world seemed to bust up. I didn't care about anything right then. So I left the statement where you threw it and rushed off down here to—lick my wounds, sort of. I was a dope, of course. I'm glad Cutler used his head."

"Why don't you tell me just what did happen, Gil?" she said. "I'm still foggy in spots."

Gil retrieved his pipe, lighted it. "Well, shortly after I went up to New York, I ran across Lew Northcott. I've known him for years and we had a couple of drinks together. And, over them, he surprised me by asking me if I wanted to make some money. As it happened, I did."

"Why?" said Ede curiously. "I'll come to that. Northcott went on to say, Ede, that he was thinking of going into the agency business on the side. But he couldn't swing it all on his own hook. He needed an angel, he said."

"And, naturally, you were the perfect angel?"

"You're a funny man, Gil," Ede pulled off the little blue hat, let it fall to the ground. "You don't fight very hard for your rights. Why didn't you just grab me and make me read that—that statement? Didn't you know that it put you absolutely in the clear?"

He nodded. "Yes. That was why I went to the trouble of appearing before a notary and getting it. It was sort of a precaution. You see, I was in a jam and I didn't know what else to do, because a certain person was involved. But you took me completely by surprise in my apartment. And when you ripped up the paper and walked out of there I was stunned."

Ede reached down and took his hand. "I was a fool. Just a plain fool . . ."

"No," said Gil. "I can see how you felt. But, at the time, I was pretty upset. And I guess I didn't do much straight thinking. I even thought that you'd probably con-

(To Be Continued)

Legion Asks Outlawing of Communism

Los Angeles, Oct. 12—(AP)—After demanding that the Communist party be outlawed, the American Legion winds up its 32nd national convention today with a stand on universal military training and the election of officers.

Delegates are expected to back the resolution unanimously.

They also will learn whether their foreign relations committee will recommend that they urge the ouster of Secretary of State Dean Acheson.

This issue was to come before the convention yesterday, but after a day-long session, the committee could not agree on a recommendation.

As for the election, word from department caucuses is that Erle Cockey, Jr., 29, Dawson, Ga., airlines executive and farmer, has the edge over his two opponents in the race for national commander. He is one of two World War II candidates. The other is Donald Wilson, 33, Clarksville, W. Va., attorney. The third contestant for the Legion's top job is Arthur J. Connell, 32, Middletown, Conn., clothing firm executive. The retiring commander is George Craig, Ind.

In addition, the convention will elect five regional vice presidents. There is only one candidate for chaplain, Rabbi David Lefkowitz, Shreveport, La. The legion rotates this office among a Protestant, a Catholic and a Jew.

The Legion urged stern measures yesterday in dealing with Communists and subversives. The delegates were unanimous in recommending:

Outlaw of the Communist party, by constitutional amendment if necessary; Communists who are American citizens should be interned and tried as traitors, those not citizens should be treated as enemy spies; federal legislation allowing the death penalty for persons convicted of espionage, sabotage or sedition in times of peace as well as war; removal from government office anyone whose Communist activities have been allowed to operate.

Other unanimously approved resolutions deplored the release from jail of longshore union chief Harry Bridges, urged continuance of the house un-American activities committee, commended AFL President William Green for his anti-communistic work and reaffirmed faith in the FBI and its director, J. Edgar Hoover.

BRAND
AMERICA'S FINEST MARGARINE

America's Utmost in Tire Rubber Economy

Their longer life and greater rubber economy prove them the essential tires of the era.

Every ounce of them is working rubber, without a fraction of waste or excess.

Each of them can give years, instead of miles, of extreme safety and comfort.

They are supported by large community investments in dealer service and maintenance equipment.

All of their original safety-mileage is continuously renewed and renewable, without recapping or anything of the sort.

With Blackwalls, or Whitewalls, they bring every owner their Mid-Century Curbguard, to protect their sidewalls and end all grinding curb scuff and abrasion.

They also bring their incomparable Safety Tread (ROYALTEX) — for Skid Protection, Stopping Power, and Life Protection never possible before.

These Royal Master qualities are entirely exclusive. They serve and save at the very heart of the National Economy.

They remain fresh and new in safety, when other tires are giving up their lives,

Fair Enough

By Westbrook Pegler
Copyright, 1950
By King Features Syndicate.

New York, Oct. 12.—A worker
there is a pottery man who is also
a member of the Taft campaign
and other publications, paid for
by the members, are not properly
credited with the original of the un-

ited. In practical fact, the entire
group of union papers are exactly
what and more disreputable press
agents of the Nazis or the morgue
would be hard to find even in the
other half of it. They are so
completely dishonest however that
they rank and file realize that their intelligence is being re-
duced. Thus they wield no mea-
surable influence in the publici-
ties. Nevertheless, the cost of
position may be charged to the
personal vanity of the Tubbins
Brothers, Lubbers and Curran.
That is understood that practi-
cally all editors maintain such
a large expenditure of journalism
as every year is seen to be a
memorable tribute to the promis-
es of a man who ought to be
restrained by law.

In the Taft campaign, Willis O.
Hall of East Liverpool, O., chair-
man of the labor league for Taft,
recently addressed to Jack Kroll,
the political action committee
of the A.I.O., a demand that he
open "the columns of our labor
papers to those who support sen-
ators this week."

Miss Hanson, women's national
amateur champion, yesterday
defeated Curtis Cup team-
mate Alice Bauer rallied to defeat Dot
Kiely, 1 up, and sister Margaret
downed Mrs. Gordon Perrin of El
Dorado, Ark. 7 and 6.

Medalist Betsy Rawls of Austin,
Tex., breezed into the quarters
finals with a 7 and 6 victory over
Mrs. H. C. Reid of Indiana.

Patty Berg, veteran professional
from Savage, Minn., out-
redheaded Betty Dodd of San Antonio,
4 and 3, and Betty Jameson,
San Antonio, defeated Helen
Detweller, Indiana, Calif., 3 and 2.

Miss Berg and Alice Bauer
met in the quarters final, while
Rawls meets her sister, Rawls
faces MacKinnon, and Hanson
meets Devaney.

H-Bomb Plant Site Still Delayed

the army engineers. They are revealed in Washington that start of construction on the Dardanelle dam project on the Arkansas river has been postponed indefinitely.

Recent reports had indicated that the H-bomb plant might be located in the Ouachita National forest where it might draw on the hydro-electric power to be furnished by the Dardanelle dam.

Will the state get the proposed huge hydrogen bomb plant or will it be located somewhere else? Hopes for the plant were dimmed somewhat yesterday by

Possible Meet May Be Held on Wake

Washington, Oct. 12 — (UPI)—The \$200,000,000 question was bandied about in Arkansas again today.

Will the state get the proposed huge hydrogen bomb plant or will it be located somewhere else?

Hopes for the plant were

dimmed somewhat yesterday by

HOPE STAR, HOPE, ARKANSAS

reports that Mr. Truman and MacArthur are headed for Wake Island, a desolate strip 2,000 miles west of Hawaii and scene of bitter fighting early in World War II.

Persons familiar with the island say it is ill-equipped to accommodate the 100 or so persons who will be in the Truman-MacArthur parties. Only a few quonset huts, they say, are on Wake.

On the other hand, a ship would provide not only adequate accommodations but good communications as well.

Two noted warships — the 45,000-ton battleship Missouri and the Mount McKinley — have figured in this line of speculation as the possible meeting site.

No definite time has been announced for the Truman-MacArthur conference, but the timing of Mr. Truman's flight in the Pacific indicates that it might be late Saturday or Sunday.

The Missouri was regarded as a likely choice until reports came today that it was in action late Wednesday night (eastern standard time), bombing North Korea's home state and was soon near the Chinese Manchurian border.

Shortly after news of the bombardment arrived, word came from its broad deck in Tokyo bay

that the President's official cir-

cle in St. Louis that the "Mighty Mo" had been definitely ruled out the formal surrender of Japan to

the Allied powers, thus bringing the second world war to a close.

During recent fighting in Korea, the Missouri has added new chapters to its battle record. It bombarded the east coast port of Samschok, supporting a South Korean marine landing designed to divert the North Koreans' attention from the main American landings at Inchon on the west coast. Then it raced around the Korean peninsula in time to support marines crossing the Han river between Inchon and Seoul. It was the only U. S. battleship in active service when the Korean fighting started.

PRESCOTT NEWS

Mrs. W. B. Beck entertained Saturday with a birthday party honoring her twin sons, Jerry and Gary on their second birthday anniversary. The young guest assembled about 150 on the lawn of the Beck home on the Boston road. After placing a number of games in which Jerry, Jean, Clifford and Kay and Kathy Binches were winners. The guest were invited to the refreshment table which was lavishly set with a variety of refreshments of every kind imaginable. On each end of the table were two beautifully embossed birthday cakes with burning candles. After singing out the praises and singing happy birthday, cake and ice cream was served to 47 guests. Favours were balloons and bubble gum.

Mr. Gene Log, of Cole is the guest this week of his son, W. B. Beck and family.

Mrs. Donnell Durham, a recent bride was honored last Wednesday at a luncheon by Mrs. P. D. Whitaker, at the Broadway hotel. Mixed garden flowers centered the luncheon table. Covers were laid for Mrs. Norman Whitaker, Mrs. S. Mrs. D. W. Durham, Mrs. J. D. Beran, Mrs. Bobby Duke of Little Rock, Ark.

Assistant U. S. District Attorney Dick Lansden Johnson said Paul Bernice Hackney, 38, of Lebanon, Tenn., was arrested on the charges yesterday.

Johnson said Barkley's complaint to federal authorities began an investigation which uncovered a second and more brutal beating.

Johnson said Holter Dr. Aper Provine, a Lebanon Negro, was beaten severely and could not stand for a week, and his upper lip and right eye permanently injured.

The indictment charged Hackney inflicted the beatings and committed other violations of civil rights when he arrested Barkley on Aug. 19, 1949, on a charge of driving while intoxicated, and Provine on March 23, 1950, on a charge of public drunkenness.

It charged Hackney beat Barkley, put him in jail without services of an attorney, and refused him the right to make bond.

Hackney surrendered to federal officers today, waived preliminary and

hearing before U. S. Commissioner J. Washington Moore, and posted \$1,000 bond.

Barkley, general manager of a Little Rock construction firm, was stopped as he drove through Lebanon, was roughed up and thrown in jail. He said he paid a \$57.50 fine the next morning without being given a chance to plead, and that he had not even drinking.

Then get quick palliative relief with Thornton & Minor Ointment or Rectal Suppositories. This doctor's formula tends to soften and shrink swelling and relieve the discomfort of piles pain, itch and irritation. Follow label directions. On sale at all good drug stores everywhere. In Hope at Gibson Drug.

Ex-Officer Indicted by Grand Jury

Nashville, Tenn., Oct. 12 — A federal grand jury has indicted discharged policeman on charges of violating the civil rights of two men of whom is Dallas Andrew Barkley of Little Rock, Ark.

Assistant U. S. District Attorney Dick Lansden Johnson said Paul Bernice Hackney, 38, of Lebanon, Tenn., was arrested on the charges yesterday.

Johnson said Barkley's complaint to federal authorities began an investigation which uncovered a second and more brutal beating.

Johnson said Holter Dr. Aper Provine, a Lebanon Negro, was beaten severely and could not stand for a week, and his upper lip and right eye permanently injured.

The indictment charged Hackney inflicted the beatings and committed other violations of civil rights when he arrested Barkley on Aug. 19, 1949, on a charge of driving while intoxicated, and Provine on March 23, 1950, on a charge of public drunkenness.

It charged Hackney beat Barkley, put him in jail without services of an attorney, and refused him the right to make bond.

Hackney surrendered to federal officers today, waived preliminary and

hearing before U. S. Commissioner J. Washington Moore, and posted \$1,000 bond.

Barkley, general manager of a Little Rock construction firm, was stopped as he drove through Lebanon, was roughed up and thrown in jail. He said he paid a \$57.50 fine the next morning without being given a chance to plead, and that he had not even drinking.

Then get quick palliative relief with Thornton & Minor Ointment or Rectal Suppositories. This doctor's formula tends to soften and shrink swelling and relieve the discomfort of piles pain, itch and irritation. Follow label directions. On sale at all good drug stores everywhere. In Hope at Gibson Drug.

450 Idled by Power Plant Strike

Forrest City, Oct. 11 — A strike last night has halted construction of a new power plant near here entered its second day today. An estimated 450 men are idle.

A dispute involving the AFL had carriers, building trades and common laborers' union and Ebasco Services, Inc., contractors for the plant, is the root of the trouble.

Eighty common laborers didn't report for work Monday and they shutdown construction work yesterday when they set up a picket line that was honored by members of other unions on the job.

A conference is planned here today between W. M. Walford, general superintendent of Ebasco, and Holl Ross, New Orleans, regional representative for the union.

The \$15,000,000 steam-generating plant is being built by the Arkansas Power and Light Co.

ARTFUL SHOPPERS — Film Director Roberto Rossellini, left and his actress wife, Ingrid Bergman, have eyes only for art as a salesman in a Milan antique shop helps them select some old prints.

Then get quick palliative relief with Thornton & Minor Ointment or Rectal Suppositories. This doctor's formula tends to soften and shrink swelling and relieve the discomfort of piles pain, itch and irritation. Follow label directions. On sale at all good drug stores everywhere. In Hope at Gibson Drug.

Home Buyers Get a New Set of Rules

Washington, Oct. 11.—Home buyers had their last chance today to try for easy-term mortgages before drastic new government controls force bigger cash down payments and faster payoff terms.

From tomorrow on:

1. Minimum cash downpayments for non-veterans will range from 10 per cent on houses costing under \$5,000 to 50 per cent on houses priced above \$24,250. Down payments for veterans will run from 5 to 45 per cent.

But on mortgage terms, buyers could do better today—if they could conclude a deal with bank or other private lender, or get in mortgage-and applications to an office of the federal housing administration (FHA) or veterans administration (VA).

The VA's expiring terms require only a 5 per cent down payment from veterans, regardless of the house's price. Those of the FHA require only a 10 to 25 per cent down payment. Either would allow up to 30 years to pay off.

Private lenders' terms, never subjected to government regulation—not even in World War II—heretofore could be as easy as they feel like giving, although they've usually been stiffer than the government. And private lenders aren't bound to any down payment or payoff limits—today.

The control terms going into effect tomorrow won't affect purchases or sales of existing houses—that is, "old" houses—if the mortgage arrangements are made through private lenders without government guarantee.

Husbands! Wives!

Want new Pep and Vim?

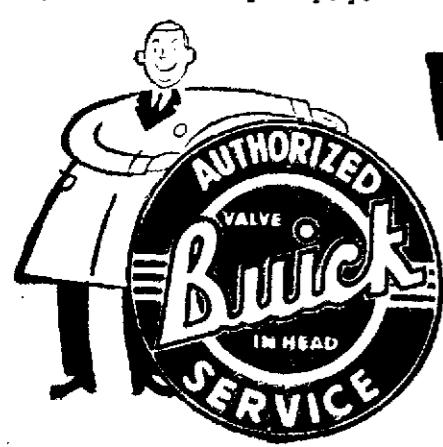

Thousands of couples are weak, worn-out, tired, listless, try Oster's Tonic Tablets. Contains Vitamins B₁, B₂, Low cost introduction, only 50¢ At all drug stores everywhere—in Hope, at Cox Drug.

THERE'S a change of the year for your Buick, too; stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

Put your

hands

export curbs on cotton in a move to halt advancing prices and assure the nation of its needs.

The new curbs on home credit brought hope of one consolation to prospective home buyers—prices of houses may drop somewhat.

Raymond E. Foley, head of the housing and home finance agency (BHFA), predicted the controls will bring prices down by (A) cutting down the number of buyers and (B) easing competition among builders for labor and materials thus lowering costs.

But on mortgage terms, buyers could do better today—if they could conclude a deal with bank or other private lender, or get in mortgage-and applications to an office of the federal housing administration (FHA) or veterans administration (VA).

The VA's expiring terms require only a 5 per cent down payment from veterans, regardless of the house's price. Those of the FHA require only a 10 to 25 per cent down payment. Either would allow up to 30 years to pay off.

Private lenders' terms, never subjected to government regulation—not even in World War II—heretofore could be as easy as they feel like giving, although they've usually been stiffer than the government. And private lenders aren't bound to any down payment or payoff limits—today.

The control terms going into effect tomorrow won't affect purchases or sales of existing houses—that is, "old" houses—if the mortgage arrangements are made through private lenders without government guarantee.

Churchill Sees Lasting Peace With Russia

Copenhagen, Denmark, Oct. 11.—Winston Churchill believes a lasting settlement may be reached with Russia to insure mankind "a long period of peace."

Britain's wartime prime minister sounded this optimistic note in a speech here last night. He also declared the world "is safer

to live in tonight than it was three months ago" because of the United Nations action in Korea.

He told a banquet audience that the great alliance of Western powers will lead "to a situation in which some kind of lasting agreement may be made with the Soviet government, and will enable

at any rate, a long interval of peace to stand between mankind and the horrors of another war."

The British statesman came to Copenhagen to receive a 100,000 kroner (\$4,000) prize for persons making significant contributions to science and culture during the year.

When you question your wife's judgment, remember that she married you.

DOROTHY DIX

Backward Beau

Dear Miss Dix: For a long time I have been in love with a man who I have every reason to be.

I have been in love with a man who I have every reason to be. He loves me, but for some reason he has never asked me to marry him. Maybe he is timid. Maybe he is afraid to tell me what he thinks. I won't be satisfied to live on what he could give me. But however you propose, daugh-

ter, you must let things rock along in "now," but it also gives him a better

chance to be a husband. It is not his fault if he fears any chain

of events will bring him harm. And so the woman should cry on her man's shoulder to encourage him to be a good man.

But however you propose, daughter, you must let things rock along in "now," but it also gives him a better

chance to be a husband. It is not his fault if he fears any chain

of events will bring him harm. And so the woman should cry on her man's shoulder to encourage him to be a good man.

JAUNITA: Answer: A girl working in an office should be a happy combination of a lady and a businessman. If she is content to let a person work away with the person's boyfriend exist as it is, then she should make the other man understand her. She should not try to make sex take the place of work and it is no part of her job to sympathize with him, because he is married to a wife who does not understand him.

DEAR DOROTHY DIX: How should girls working in public and private offices conduct themselves? How should they dress? What should be their attitude toward their employer and the other men in the office?

JEANIE: Another proposition facing your girl is another man's wife. She should make the other man understand her. She should not be dignified, yet gracious. Office flirtation may get her into trouble, but nota prude; easy to get along with, yet not fresh and jobless.

DEAR MISS DIX: I am a boy on the verge of getting married, and

Nobody wants a girl employee I want to know if I should invite

to my wedding the idea of a

girl who is the only one who expects to have as my father to my wedding. He has

been guilty of every crime short
